### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard C. Himelhoch on 10/22/2004.

1. The application has been amended as follows:

(a) IN THE CLAIMS:

Claims 12-14 have been cancelled.

(b) IN THE DRAWINGS:

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because informal drawings with hand written labels and numerical designations were submitted at the time of application . Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

### Reasons for Allowance

2. Claims 1 - 11 are allowed over prior art of record.

The following is an examiner's statement of reasons for allowance:

The present invention is concerned with transmitting and receiving data between radio stations in a multipoint TDMA digital wireless networks in a star configuration. The unique method steps include “ providing a renewal packet upon request for renewal of temporary identifier to remote stations for a predetermined number of dwell periods and granting the request to extend the use of temporary identifier” (claims 1 and 4). The closest prior art of record, Reichman et al. (U.S. 6,535,716) disclose a monitoring and control system for satellite communication networks controlling data packets to and from remote terminal. However, Reichman et al. fail to disclose the above underlined unique method steps and render the claimed invention allowable.

Other pertinent art:

Fischer (U.S. 5,371,734)

Kumaki, Yoshinari [Kabushiki K. Toshiba] EP 0 883 266 A2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Art Unit: 2667
